

Victorian IT Traineeship Program

EXPANSION OPPORTUNITIES IN THE IT SECTOR

Ai Group is coordinating a program to boost capability within IT departments. Based on increased demand brought on by the COVID pandemic Ai Group has learnt that businesses are requiring extra resources in their IT departments.

Ai Group's IT traineeship program has been marketing to potential trainees for more than 6 months. We have access to capable and willing trainees ready to get started.

A generous financial incentive per trainee of \$2,000+ GST on top of already existing Federal incentives may be available until 30 April 2021 to new trainees.

Hurry financial incentives are running out fast.

In partnership with **Integrity Business College**, you will be supported with:

- Pre-screened tech-savvy and keen to work hard Trainees
- Trainee supervisors are offered free training to help with overseeing the Trainee
- A dedicated mentor who specialises in IT on hand to support the Trainee

The trainee must be a new employee and employed full time

This program is open to all Employers and Group Training until 30 June 2021.
